### Come Celebrate!

Hepburn Springs and Australia's Spa Capital will be under the spotlight in 2009 when Australia's oldest Italian building reaches 150 years!

Festivities focus on bringing families of original settlers and history-lovers back to our picturesque village, once known as Spring Creek..... to reflect and celebrate the gold prospecting that brought so many Swiss, Italians and many other nationalities to the region, the finding of mineral water and the establishment of Australia's first Macaroni Factory.

**A Pioneer's Avenue of Honour** at Hepburn Springs will salute the many nationalities of those who settled during the gold rush days and worked at the "Jim Crow Diggings" in the Hepburn and Daylesford areas. This community project will see the commencement of Chestnut trees being planted down the front driveway of the Macaroni Factory property. Participation is open to descendants at a contribution of \$150. The Pioneer's Avenue of Honour Project will be officially launched on 11 February 2009.

Unlike many of the country's historic buildings, the Old Macaroni Factory is still in the hands of a direct descendant of those who built it: in this case Maria Viola, a descendant of Giacomo, one of the Lucini brothers who fled to Australia as a political refugee from Intra on Lake Maggiore, high in the Italian Alps and close to the Swiss border. Fourth generation Maria and her son Matt now welcome visitors into the Lucini home every weekend and invite them to share some of the magic they have inherited. Lucini's Pasta Café is fully licensed and operates Friday to Sunday for lunch, dinner and Devonshire teas and historic one hour tours of the property are on Saturday and Sunday at 10.30 am \$10.

The 2009 opening weekend will include three days of celebration at the historic property including a **Back to Spring Creek Descendant's Dinner on Fri 27 Feb** when friends and families of early Italian-speaking settlers will reunite. **A Night on the Goldfields on Sat 28 Feb** salutes all nationalities who settled in the area. At dusk on the property, a reflection of life on the goldfields in the 1800's will be presented through narration, music and singing. There is car parking on the property, neighboring streets and other public areas. A pre-show buffet dinner option is available for \$25/\$15 plus supper, wine, drinks and souvenir sales during the night. Concert entry is \$12 adults \$8 stud/concession, \$30 family, children U10 free. **Daytime in the Piazza on Sun 1 March** is a day to salute Italian customs and traditions in a piazza

setting. Enjoy a Lucini's buffet lunch in the café and gardens, historic demonstrations and produce stalls, Lucini sausages, pizza and wine. Traditional Italian card games, bocce and community stalls are all part of the program. Entry is by Gold coin donation from 10am.

Maria runs tours of the historic building and serves rustic dishes from family recipes at the pasta café she has called **Lucini's** after the family. Her Lucini sausages are made from a recipe older than the building, as are sauces developed lovingly by generations of family women from Northern Italy. Lucini's Pasta Café is fully licensed and operates Friday to Sunday for lunch, dinner and Devonshire teas and historic one hour tours of the property are on Saturday and Sunday at 10.30 am \$10.

Further events in the year will run **March through to December**, including participation with several key festivals in the region and from Melbourne. **ChillOut at the Factory** on the weekend [6-8 March] includes **"Dinner at the Diner"** with music of the 70's and 80's, alfresco lunches and garden bocce.

Working in with special guests and entertainment from **Melbourne Italian Festa**, [24 May-7 June] The Macaroni Factory's **Little Corner of Italy** program will be a part of fringe performances on the property. Themed dinners, live artists and entertainment in the piazza and garden theatre are planned. These celebrations will include **Italian Republic Day** [Tues 2 June].

Further festivities include **"The Lucini Stories"** during the **Words in Winter Festival** [1-2 August], and the new **Hepburn Comedy Festa** [19-20 September] to be introduced at local venues to celebrate the birthday of ancestor Cosmo **"King of Hepburn"** Lucini. Two significant end of year events include participation the annual **Swiss Italian Festa** [moved in 09 from April to October], and the **Geranium and Herb Festa** as part of the annual **Fabulous Flower Festa** [Sun 16 November].

**The original owners of the ‘Old Italian’, Lucini brothers Pietro and Giacomo, came from Intra on Lake Maggiore, high in the Italian Alps and close to the Swiss border.**

Educated fabric merchants, they had fought with Giuseppe Mazzini as “Amici di Italia” in Mazzini’s attempt to unite Italy’s many states and kingdoms into an Italian republic and rid them of a variety of invaders and oppression.

After Mazzini’s defeats in Mantua and Milan, the brothers found themselves political refugees with few places to go. News of gold discovered in Victoria led Pietro to Melbourne where he arrived in 1854.

Pietro had no trouble establishing a business selling fabrics but with supplies difficult to come by, he turned his entrepreneurial skills to opening Australia’s first macaroni business. Unfortunately there were few Italians in Melbourne and "Colonial" Australians didn’t eat macaroni!

So Pietro joined the thousands of prospectors heading for the Goldfields of western Victoria and arrived in Spring Creek in 1855. He staked a claim and opened a bakery. Discovering thousands of Swiss and Italians amongst the miners, he quickly converted the bakery to the making of macaroni. Later in 1855 his gold mine in Doctor’s Gully was successful and provided a lucrative source of income for many years.

In 1859 Giacomo Lucini, accompanied by his wife Rosa, arrived to join his brother. Rosa was not happy with the choice of a cramped miner’s cottage for her family so the brothers set about to build a bigger place that would accommodate the factory as well as living quarters for Pietro and Giacomo’s growing family. Using local stone and hand made bricks, along with glass and other materials brought up by bullock dray from Melbourne, the two-storey Macaroni Factory was born.

The brothers did not forget their heritage. In support of Mazzini and his ideals, Pietro gathered about him other Italian patriots who had settled in the area and established the Hepburn Democratic Club. Meanwhile Giacomo painted frescoes on the walls and ceiling of the new home. These scenes from Lake Maggiore and the countryside painted from 1862 to 1864 were daily reminders of the land they had left behind.

The Swiss and Italians in the community had discovered the local mineral water and not only did the brothers use it for their pasta, but Pietro was one of a group of locals who persuaded the Government that the area should be set aside as public land. That Mineral Springs Reserve, now home to the iconic Bathhouse and Spa, the Pavilion and numerous mineral springs that can be enjoyed by the public is testament to their foresight.

The brothers lived to see the Austrians depart and Italy united and The Old Macaroni Factory become a symbol of home for the many Swiss and Italians who settled in the village that is now Hepburn Springs.

**Fast forward to 1990 and Maria Viola, a fourth generation Lucini, granddaughter of Giacomo’s daughter Maria, inherited the property from her father Joseph.**

*[After the 1941 death of Cosmo Lucini, Giacomo’s eldest son, Cosmo’s daughter Rosa turned the grounds into a caravan park and leased the lower rooms of the “Factory” as a bed and breakfast venue. Then, during the 1960s Rosa closed the Park and lived there until she died in 1970. Joseph, her first cousin, inherited the property and when he died in 1990, he left it to his daughter Maria.]*

By 1990, derelict with rotting floors and blackberries growing in and around it, the building was in need of a lot more than TLC. Maria was not in a financial position to do even minor renovations. Passionate about the old Lucini home and, with the support of her family, she decided to explore avenues to restore the building and once again hear laughter within its walls.

With the help of Heritage Victoria, Daylesford and District Historical Society, Rotary, Victorian’s Regional Tourism program and Cultural Heritage Projects, research was undertaken, funds raised, conservators consulted and the building was slowly restored over 14 years to become an historic museum and pasta café.

In 2003 the Old Macaroni Factory had more than 15 minutes of fame becoming a film star when chosen as the location for Jan Sardi’s film “Love’s Brother”. A new Bocce court was built for the film and once again the popular Italian game could be played in the grounds of the building.

To provide an income, Maria started conducting tours of the building and in 2003 opened Lucini’s Pasta Café, bringing back to the kitchen the family recipes that had been cooked and served in the same rooms over a century before. Recipes for pasta sauces and the family sausage became menu items for visitors to enjoy as they had been in the 1860s.

During dinners on weekends Maria and her son Matt play host to locals and visitors, share stories about the Lucini family and the early days of Hepburn Springs. When the mood is right, diners join in singing or dancing as the family once did under Giacomo’s frescoes, now restored for all to enjoy.

Home, macaroni factory, political club, film location, reunion centre, café and bar, museum, entertainment venue, scene of Bocce tournaments and card games and Festa centrepiece, the Old Macaroni Factory has been many things to many people in its 150 years.

The building is now on the National Estate Listing, registered by Heritage Victoria and classified by the National Trust.

In 2008 and on the eve of its 150<sup>th</sup> anniversary, The Old Macaroni Factory is once again a home and business for the Lucini family. Giacomo’s youngest descendants Maddy and Bella play in the garden while Nonna Maria and son Matt prepare to welcome guests to Lucini’s. The building continues to be an integral part of the fabric of Hepburn Springs and a major icon of the Daylesford-Hepburn Springs visitor experience.
